Elements deprecated in HTML5 should not be used

With the advent of HTML5, many old elements were deprecated. To ensure the best user experience, deprecated elements should not be used. This rule checks for the following deprecated elements:

Element	Remediation Action
basefont, big, blink, center, font, marquee, multicol, nobr, spacer, tt	use CSS
acronym	use <code>abbr</code>
applet	use <code>embed</code> or <code>object</code>
bgound	use <code>audio</code>
frame, frameset, noframes	restructure the page to remove frames

<div>Remove this deprecated "noshade" attribute. <a href="#">...</a></div> <div>  Code Smell            Major            Open            Not assigned            5min effort           <a href="#">Comment</a> </div> <div>11 months ago  L46 </div> <div></div>
